RAGNAR PRO X2

RAGNAR PRO X2

Ragnar PRO X2 is a professional racing simulator equipped with a motion system. By using different techniques it can faithfully emulate the feeling of being in and driving a race car, all of which is achieved by implementing a motion system. It includes 3 actuators, a central unit that manages the behavior of the entire rig and software to simulate the driving experience.

Ragnar PRO X2 is equipped with professional devices. The driving experience will be appreciated the most by professional drivers. The one and only driving simulator certificated by Polish Automobile and Motorcycle Federation.

Hardware

- High quality and well designed construction
- Adjustable position of pedals, seat and steering wheel
- PRO wheel base: Direct Drive SimuCube 2 Sport
- PRO race steering wheel : Sparco R353 (alcantara) + button box GT3-R with paddles (wireless)
- PRO Hydraulic pedals: Tilton T600
- Sequential gearbox (replica of Porsche 911 GT3 Cup 997)
- LCD 5" screen behind the steering wheel (dashboard)
- 3 x LED TV Samsung 55"
- PRO PC able to run in triple-screen mode
- Sparco Evo (FIA) bucket seat
- 6-point racing seatbelts
- Logitech 5.1 surround system
- Air-cooled system for a driver
- Wiring
- Wireless keyboard and mouse

Motion system

- 3x SCN6 electromagnetic actuators
- Central unit managing the work of motion system
- Simulation of kinetic energy and g-forces
- Simulation of rear-end traction loss (oversteer)
- Simulation of suspension system and gear shifts
- Excellent perception of road surface achieved with a 250 times / 1s actuator update rate
- Up to 400kg mass limit
- Easy to use software for motion system
- Fast, direct, reliable and solid
- Recommended for professionals

RAGNAR PRO X2

Software (adjustable)

- Windows 10 Home 64bit
- Simulation software for racing / rallying: Assetto Corsa, Assetto Corsa Competizione, rFactor 2, Dirt Rally 2.0, RBR
- TeamViewer - remote support

Technical specification

- Dimensions: 261 cm (length) x 276cm with screens spreaded (width) x 162cm (height)
- Weight: around 550 kg.
- Construction: steel
- Ergonomics: adjustable seat position, pedals, steering wheel, screen
- 230 V Power supply

Purpose

- Stress-free driving learning
- Reducing the costs of training and courses
- Learning driving techniques (sport / safe)
- Improving decision making while driving
- Learning how to drive in challenging weather conditions (fog, night, snow, rain)
- Practising driving different type of vehicles
- Improving muscle memory
- Improving physical condition and coordination

Price of RAGNAR PRO X2: 75.000 EUR (excluding VAT)

The price includes: complete simulator with licensed home use software, usage tutorial, 2 year warranty (private use and 1 year (commercial use), 1 year technical support through online / phone call (with option to extend the subscription)

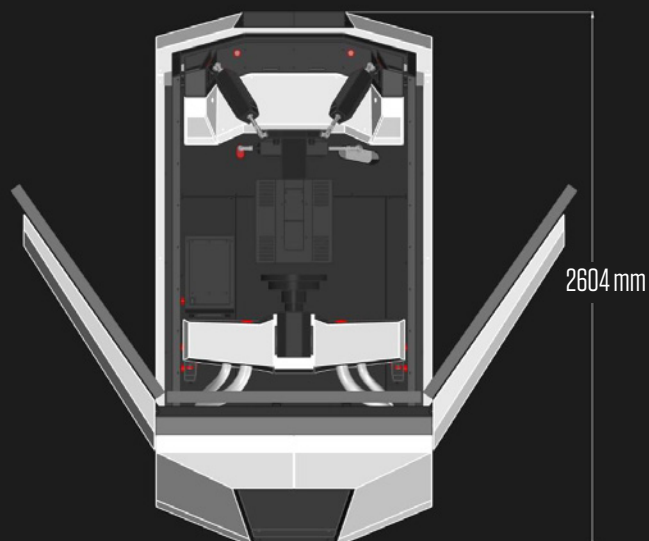

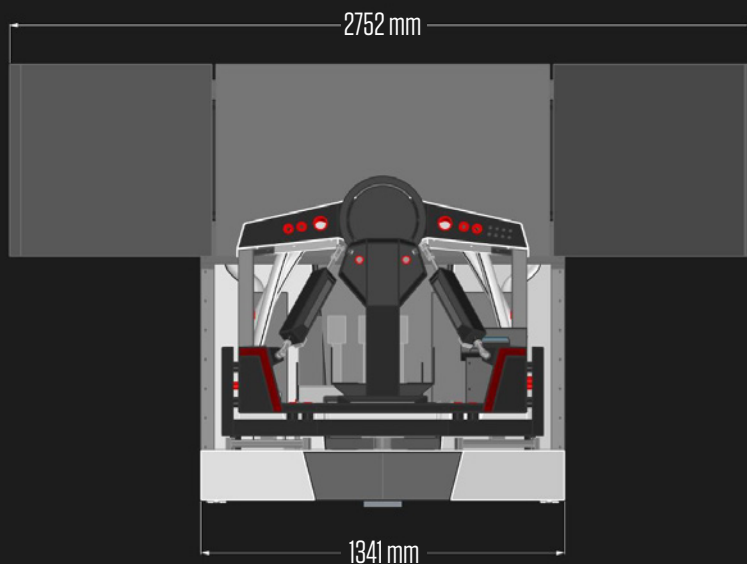

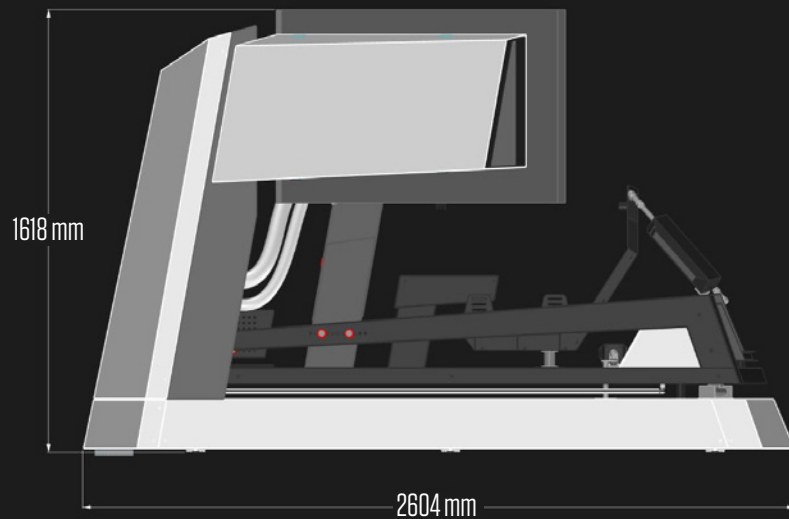

Additional options

- Ondividual livery
- Commercial license for games
- Extension of the technical support period: 1 year - EUR 2,000 + VAT
- Extension of the warranty period: 1 year - EUR 2,500 + VAT

Realization

- Sales agreement
- Payment in advance: 100%
- Delivery time: 90-120 days from the agreement sign date

RAGNAR PRO X2

weight: 550 kg
